Innerspring maker-users

Foam Producers: Carpenter FXI Future Foam

Wire Producers: Davis Wire (Heico) Mid-South Taubensee The U.S. bedding market has changed significantly in recent years. The emergence of compressed, boxed mattresses and the ability to purchase a mattress online spurred shifts in leading brands and manufacturers, sales and distribution channels, and consumer product preferences. These market changes created new opportunities that we are well-positioned to capitalize on going forward.

Our Bedding business is positioned unlike any other in the world. We can support our customers from innerspring and specialty foam components to private-label finished compressed mattresses and foundations. Our distribution and fulfillment capabilities enable us to ship either to our customer or directly to the consumer. Our full suite of bedding capabilities positions us to serve traditional OEM customers, newer digitally native brands, and private-label retail brands, and create value at each point along the value chain.

Our rod, wire and spring supply chain drives value through production and innovation with products like our ComfortCore[®] pocketed innersprings, Quantum[®] Edge perimeter support, and combination pocket innersprings. Product innovation in specialty chemical additives allows our specialty foam operations to enhance foam performance by reducing heat retention and improving mobility, support, and durability. We create quality compressed specialty foam and hybrid mattresses and semifinished mattresses by leveraging our specialty foam and innerspring capabilities. In addition, we provide adjustable foundations and ready-to-assemble static foundations either as standalone products or paired with mattresses for a complete sleep system.

- Breadth of product offering and ability to service customers anywhere in the value chain
- Industry leading R&D yields new and innovative products for our customers
- Vertically integrated to ensure availability and quality of key raw materials
- High-speed and flexible machine technology supports innerspring innovation and production efficiency
- Large North American manufacturing and distribution network

BEDDING PRODUCTS

Bedding Group

Steel Rod & Wire

www.leggettwiregroup.com

Our Sterling, IL rod mill has the capacity to melt ~550,000 tons of steel scrap. Billets are formed from the melted scrap and can then be used to make ~500,000 tons of steel rod. About 70% of the steel rod we produce is used by our two domestic wire mills; the remainder is sold externally into various industrial markets.

Our wire mills can produce approximately 400,000 tons of steel wire annually, making us the largest independent high carbon wire producer in the U.S. Our wire mills offer a wide range of drawing and finishing capabilities for both high and low carbon steel wire. The majority of this wire is used by Leggett operations; the remainder is sold to external customers and used in a number of products, including mechanical springs, appliance racking, and various other wire forms.

Major Operations

U.S. Spring

www.beddingcomponents.com

Leggett & Platt has been the driving force in bedding components technology since inventing the bedspring in 1885. We are the world's leading manufacturer of mattress innersprings and own more mattress industry patents than anyone else in the world. Our operations manufacture multiple types of innersprings, semifinished mattresses, boxsprings, and ready-to-assemble static foundations.

Our strongest performing product is our higher-value innerspring, ComfortCore[®], which contains fabric-encased coils that minimize partner disturbance. Our ComfortCore[®] innerspring can include added features such as Quantum[®] Edge, our narrow-diameter coils that form a perimeter around the mattress, and our newly introduced Eco-Base[™], which integrates a robust fabric that replaces mattress base foam and eliminates a step in the OEM mattress manufacturing process.

Specialty Foam

www.elitecomfortsolutions.com

www.petersonchemicals.com

In 2019, we acquired Elite Comfort Solutions (ECS), a leader in proprietary specialty foam technology, primarily for the bedding and furniture industries. Through this acquisition, we gained critical capabilities in proprietary foam technology, along with scale in the production of private-label finished mattresses, which significantly expanded our presence in the high-growth compressed mattress market segment.

We are a leading U.S. provider of specialty bedding foams and private-label compressed mattresses, mattress toppers and pillows. We supply proprietary specialty foams that are developed by a team of chemical engineers at Peterson Chemical Technology, located in Fort Smith, Arkansas. These specialty foams are used in mattress comfort layers to reduce heat retention and improve mobility, support, and durability.

L&P Bedding Value Chain

Our rod mill in Sterling, Illinois, has the capacity to melt approximately 550,000 tons of steel scrap. Billets are formed from the melted scrap and can then be used to make around 500,000 tons of steel rod.

The majority of the rod goes to our two domestic wire mills to be drawn into various gauges of wire, while most of the wire goes to our spring-making plants to be coiled into innersprings on wire-forming machines manufactured by our Spühl facility in Switzerland.

FORMING SPRINGS

Our innersprings are sold to most U.S. bedding manufacturers and used in private label finished hybrid compressed mattresses produced in our facilities across the country.

www.leggett-automotive.com

As a global leader in automotive seating comfort systems and suspension components, we continue to meet the ever-changing requirements of the industry. Our Automotive business is closely aligned with the long-term changes in the market. These changes include the development of new technologies and applications such as hybrid and electric vehicles and connectivity between vehicles and electronic devices. We are investing in the capabilities needed for continued success in the changing market and to ensure our business remains competitive for years to come.

We are aligned with trends of increasing consumer demand for comfort and convenience features. Automakers are focused on areas where we have unique capabilities:

- Adding more powered features throughout the vehicle
- Focusing on lighter-weight and smaller-sized components
- Increasing the number of global programs
- Directing more component sourcing themselves

Our advantages in this space are rooted in deep industry knowledge and customer engagement. Leggett is known as the leader in technology for seating comfort, and we have extended our capabilities into other comfort and convenience applications such as powered rear lift gates, third-row seat fold and tumble systems and door handle presenters. We have a global footprint with the ability to engineer, manufacture, and deliver products around the world. Our incumbency with customers gives us a front row seat in the fast-changing industry, providing the insight necessary for what component features, electronics, and software will do to enhance the user experience. These advantages have driven our growth, provided market leadership for our business, and created a basis for continued success.

- Engineering and technical prowess
- Customization—deep customer engagement
- Program launch and product reliability
- Global footprint

SPECIALIZED PRODUCTS

Aerospace Products Group

A major provider of titanium and nickel alloy tubing, formed tube, and tube assemblies for the aerospace industry

Customers

We supply product to multiple tiers of suppliers within the supply chain, but primarily:

System integrators (Tier 1) Assemblers (Tier 2)

Competitors

Various small to mid-sized companies and some maker-users

Major Operations

California—Poway Connecticut—Middletown Washington—Kirkland France—Nanterre, Samer UK—Dunstable, Salisbury

www.leggettaerospace.com

We produce welded and seamless tubing and specialty formed products from titanium, nickel alloy, stainless steel, and other high strength metals for leading aerospace suppliers. Requirements regarding weight, corrosion, wear, and extreme temperature differentials necessitate the use of these advanced alloys. We also produce tube assemblies and perform precision machining for aerospace applications. Our products are utilized in demanding environments where product integrity and durability are paramount. They are integral components of critical aircraft systems, including for fuel, hydraulic, pneumatic, environmental, life support, stability and cooling.

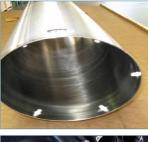

Our global market focus is fluid conveyance systems (air and liquid) within the airframe and engine on commercial and defense aircraft.

- Reliable quality and delivery
- U.S. and European footprint
- Vertical integration
- Core capability in exotic metals for high-pressure, high-temperature applications

Self-supply by certain OEMs

Large OEM providers with comprehensive adjacent product portfolios

Major Operations

North Carolina—Beulaville China—Ningbo Germany—Eschwege India—Chennai UK—Cramlington www.phc-global.com www.pacoma.com

We are a leading supplier of hydraulic cylinders for material handling and heavy construction equipment markets. We design, engineer, and manufacture single-acting and double acting cylinders for:

- mobile equipment applications such as lift trucks, forklifts, truck-mounted cranes, and aerial work platforms
- heavy construction equipment such as wheeled loaders, dump trucks, and excavators.

Our products often operate in demanding environments where equipment dependability is vital in maintaining the safety of personnel and goods.

In 2022, we entered the heavy construction equipment market through an acquisition that built scale in our hydraulic cylinders business.

- Comprehensive engineering and design capabilities
- Strong reputation for quality and reliability
- Global footprint allows for quick turnaround and JIT delivery

FURNITURE, FLOORING & TEXTILE PRODUCTS

Home Furniture Group

A leading producer of recliner mechanisms, seating systems and sofa sleeper units for the upholstered furniture industry

Customers

We serve accounts of all sizes around the world and our major U.S. customers include:

American Leather Ashley Furniture Bassett Best Home Furniture Flexsteel La-Z-Boy Southern Motion

Competitors

Primarily Chinese producers

Self-supply by selected brands

www.lpfurniturecomponents.com

Leggett & Platt is recognized as a leading global producer of furniture components for the upholstered furniture industry. Our products enhance comfort, motion and style in upholstered furniture and include recliner mechanisms, seating support systems, and sofa sleeper units. Our operations are strategically located around the world to efficiently supply upholstered furniture manufacturers.

Competitive Advantages

- Global presence with international manufacturing, product development, distribution and sales
- Established reputation for high quality products combined with exceptional service

Major Operations

¹ Sales, EBIT, EBITDA, and margin reflects new segment structure and excludes discontinued operations.

² Effective 1Q21, the accounting methodology for valuing domestic steel-related inventory changed from LIFO to FIFO. 2015 - 2020 financial data has been adjusted to apply the effects of the change.

¹ Sales, EBIT, EBITDA, and margin reflects new segment structure and excludes discontinued operations.

² Effective 1020, segment EBIT and EBITDA margins will be calculated on Net Trade Sales; historical segment EBIT and EBITDA margins have been revised to reflect the calculation change.

³ Effective 1Q21, the accounting methodology for valuing domestic steel-related inventory changed from LIFO to FIFO. 2015 - 2020 financial data has been adjusted to apply the effects of the change.
